

7.3.3 Reuse Program Management Process

7.3.3.1 Purpose

The purpose of the Reuse Program Management Process is to plan, establish, manage, control, and monitor an organization's reuse program and to systematically exploit reuse opportunities.

7.3.3.2 Outcomes

As a result of successful implementation of the Reuse Program Management Process:

- a) the organization's reuse strategy, including its purpose, scope, goals, and objectives, is defined;
- b) the domains for potential reuse opportunities are identified;
- c) the organization's systematic reuse capability is assessed;
- d) the reuse potential of each domain is assessed;
- e) reuse proposals are evaluated to ensure the reuse product is suitable for the proposed application;
- f) the reuse strategy is implemented in the organization;
- g) feedback, communication, and notification mechanisms that operate between affected parties are established; and
- h) the reuse program is monitored and evaluated.

NOTE — The affected parties may include reuse program administrators, asset managers, domain engineers, developers, operators, and maintainers.

7.3.3.3 Activities and Tasks

The project shall implement the following activities in accordance with applicable organizational policies and procedures with respect to the Reuse Program Management Process.

7.3.3.3.1 Initiation

This activity consists of the following tasks:

7.3.3.3.1.1 The reuse program for an organization shall be initiated by establishing the organization's reuse strategy that includes its reuse goals, purposes, objectives, and scope.

7.3.3.3.1.2 A reuse sponsor should be named.

7.3.3.3.1.3 Reuse program participants shall be identified and their roles shall be assigned.

7.3.3.3.1.4 A reuse steering function shall be established to assume the authority and responsibility for the organization's reuse program.

7.3.3.3.1.5 A reuse program support function shall be established.

7.3.3.3.2 Domain Identification

This activity consists of the following tasks:

7.3.3.3.2.1 The reuse program administrator, aided by the appropriate managers, domain engineers, users, and software developers, shall identify and document the domains in which to investigate reuse opportunities or in which the organization intends to practice reuse.

7.3.3.3.2.2 The reuse program administrator, aided by the appropriate managers, domain engineers, users, and software developers, shall evaluate the domains to assure that they accurately reflect the organization's reuse strategy.

7.3.3.3.2.3 The reuse program administrator shall conduct reviews in accordance with the Software Review Process. Software developers, domain engineers, and users shall be included in the reviews.

7.3.3.3.2.4 As more information about the organization's domains and plans for future software products becomes available or when the domains are analyzed, the domains may be refined and rescope by the reuse program administrator.

7.3.3.3.3 Reuse Assessment

This activity consists of the following tasks:

7.3.3.3.3.1 The reuse program administrator shall assess the organization's systematic reuse capability.

7.3.3.3.3.2 The reuse program administrator shall assess each domain being considered for reuse to determine the potential for reuse success in the domain.

7.3.3.3.3.3 The reuse program administrator shall make recommendations for refining the organization's reuse strategy and reuse program implementation plan based on the results of the reuse assessments.

7.3.3.3.3.4 The reuse program administrator, in conjunction with the appropriate acquirers, suppliers, developers, operators, maintainers, asset managers, and domain engineers, shall incrementally improve the skills, technology, reuse processes, organizational structure, and metrics that together comprise the reuse infrastructure.

7.3.3.3.4 Planning

This activity consists of the following tasks:

7.3.3.3.4.1 A reuse program implementation plan shall be created, documented, and maintained to define the resources and procedures for implementing a reuse

program.

7.3.3.3.4.2 The plan shall be reviewed and evaluated for completeness, feasibility of implementation, and ability to realize the organization's reuse strategy. Those evaluating the plan should include members of the reuse steering function and the appropriate managers.

7.3.3.3.4.3 Approval and support for the reuse program implementation plan shall be obtained from the reuse steering function and the appropriate managers.

7.3.3.3.4.4 The reuse program administrator shall conduct review(s) in accordance with the Software Review Process. Members of the reuse steering function and the appropriate managers shall be included in the reviews.

7.3.3.3.5 Execution and Control

This activity consists of the following tasks:

7.3.3.3.5.1 Activities in the reuse program implementation plan shall be executed in accordance with the plan.

7.3.3.3.5.2 The reuse program administrator shall monitor the progress of the reuse program against the organization's reuse strategy and make any necessary adjustments to the plan to realize the strategy.

7.3.3.3.5.3 The reuse program administrator shall record and report significant variances, risks, and issues encountered during the execution of the reuse program.

7.3.3.3.5.4 The reuse program administrator shall periodically reaffirm management sponsorship, support, and commitment to the reuse program.

7.3.3.3.6 Review and Evaluation

This activity consists of the following tasks:

7.3.3.3.6.1 The reuse program administrator shall conduct periodic reviews of the organization's reuse program in accordance with the Software Review Process to determine program effectiveness and alignment with organizational goals.

7.3.3.3.6.2 The reuse program administrator shall provide assessment results and lessons learned to the reuse steering function and appropriate managers.

7.3.3.3.6.3 The reuse program administrator shall recommend and make changes to the reuse program strategy, plans, or supporting infrastructure to address identified issues, improve performance, and exploit emerging reuse opportunities.
